Conference Closing
and
Announcement for Users Forum 2010

Carl Wilén
Saab Aerotech
Summary

Tutorial on S1000D and SCORM
Department of Defense Keynote address
PLSC introduction

Track 1: Creating the Vision for Integrated Logistics
- The ASD Suite of ILS Specifications
  - got an overview of the complementary standards S1000D, S2000M, S3000L, S4000M, and S5000F
  - what they are intended to do, what’s covered (content), what data is taken care of and between which “specifications” does it exchange these data
- Implementation of the ILS vision of data reuse
  - Experience of from users and implementers of the S1000D and PLCS
Track 2: **Implementation: Processes, tools and methods**

- **The practical side of implementation**
  - lessons learned, processes and innovations, enabling tools and technologies
  - looked at the value of harmonizing S1000D with other related standards, including SCORM

- **Lesson learned from implementing S1000D**
  - the practical side of implementation
  - using lessons learned, demonstration of processes and enabling tools and new technologies

**Product demonstrations**

**The Civil aviation touch - Customer and tech info producer**

**Summary discussion**
Future ASD specification projects to support the technical publication process
